Web Proxy: Unblock websites without installation

Welcome to the Pxaa.com, web proxy list, a resource for web proxy users and proxy site owners. There are many reasons why people use an anonymous proxy to surf the web. If you are looking for a public proxy to use then feel free to browse from the proxy list below. You can unblock websites without any installation through a web proxy server.

The proxy list is being revised regularly to add fresh information. However, if you own an online proxy server, you may submit your site to this proxy list for free and pick up a free link and traffic. Pxaa.com provides a quality list with free proxy servers.

How does a proxy server work?

You may have heard about a proxy site and wonder why anyone would need a proxy to surf the World Wide Web. In essence a proxy site is a web application software that lets you hide your real IP address when visiting any site on the Internet. An anonymous proxy server is a special server that lets the users hide their own IP address, thus you can visit a website without any censorship or other restriction.

To prevent potential abuse, sometimes proxy webmasters block traffic from certain countries and IP to keep out spammers and scrapers. Also they often consume so much bandwidth and server resources. Try our alternate proxy server.

I can't watch videos on a proxy site.

Proxy websites don't always allow you to watch videos. The web proxy is configured to disallow streaming movies. They're eating server resources and bandwidth. Heavy advertising implemented to cover the server cost.

Why do I need a fresh proxy list?

The nature of web proxy, proxies have a short life as they are soon detected and blocked by internet filtering. To unblock your internet connection, you need a new server. The cycle is every 2 or 4 weeks but not always, it depends on your ISP.
